**Notice to Buyers**

**HEALTH** - All bulls have been vaccinated for 3-Day, Botulism and Vibrio. They have also been injected with 3 Germ Blood. The herd is TB and Brucellosis free. All Bulls J-BAS 7.

**MEASUREMENTS** - Fat scans, eye muscle area, scrotal size, weight and daily weight gain information will be supplied on the day of sale on supplementary sheets.

**INSTRUCTIONS** - All instructions covering delivery of cattle purchased at this sale must be given in writing and signed by buyer or his representative. A tear-off Instruction Sheet is provided for this purpose at the back of the catalogue.

**DELIVERY** - Delivery will be given at Ravensbourne on the day of the sale. If needed, bulls will be delivered to Blackall. Cattle awaiting trucking will be held free of charge for a period not exceeding two weeks. Every care will be taken but absolutely no responsibility will be accepted.

**INSURANCE** - Insurance representatives will be in attendance at the sale and will insure your purchases on the fall of the hammer if required.

**REBATE** - Vendor will allow 3% rebate to outside agents introducing buyers in writing 24 hours prior to the sale and settling on their behalf by 5th November 2019.

---

**Important Notice**

All livestock will be sold under the Queensland Livestock Agents Association Limited Standard Stud Stock - Auction Terms and Conditions of Sale that will be displayed on the day of the sale. All persons who attend the sale do so entirely at their risk and Strathmore Santa Gertrudis Stud, the Selling Agents, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever, which may occur.

---

**Semen Morphology**

Semen Morphology is the count expressed as a percentage (by an accredited Semen Morphologist) of the normal sperm in an ejaculate from a bull. Some types of abnormal sperm are unable to fertilise the egg while other types of abnormal sperm can fertilise the egg but then cause the resulting embryo to die. It is therefore likely that a sexually active bull with a high percentage of normal sperm will be more fertile than one with a low percentage of normal sperm.

Crush side semen testing without the examination of Semen Morphology is unreliable and incomplete.

The Bull Power Project found that semen quality particularly the percentage of normal sperm was consistently related to a high number of calves on the ground and a more compressed calving.

While a pass for Semen Morphology does not guarantee high fertility, continued failure almost certainly means relatively low fertilisation rates. By retesting the bulls that fail the initial test, our aim is to identify those animals that have a genetic weakness or a predisposition to be affected by outside factors. We place great emphasis on this comprehensive semen analysis and all Strathmore bulls sold must pass The Australian Cattle Veterinary Thresholds for specific and total abnormalities. Bulls that fail are removed from sale.

Test results are subject to change and are affected by sexual maturity, nutrition, to the rate of weight gain or loss, age, genetics, injury, illness, relocation and environmental stresses.

Bulls with results from 70%-100% normal sperm are deemed fertile for single sire mating. Bulls with 50%-69% are deemed acceptable for multiple sire mating. The total percentage results for all bulls will be stated on the supplementary sheets on the day of Sale.

Accredited Semen Morphologists used:
**Kellie Prosser**
**Accreditation No.** - SMA0709
Everest, a grandson of Wave Hill Major, is a bull with great sire appeal, beautiful breed character and nice loose skin. At 9yrs 8months of age he demonstrates longevity which is testament to his structural soundness. Being the top performing bull of 2010 he was retained as a sire. He is a bull with volume, bone and great doing ability.

Strathmore Everest E594 (P)

Sire: Strathmore X196 (P)
Dam: Strathmore Z467

Strathmore F528 (P)

Sire: Strathmore X196 (P)
Dam: Strathmore Z269

Strathmore F528 (P) was retained in the stud in 2012. He was a well-rounded bull who was hard to fault. His structural soundness, strong breed character and lovely coat type afforded him great sire appeal.

Strathmore F528 (P)

Sire Information

Purchased in 2016 for $44000, Lazarus had all the desirable traits. A growthy bull with muscle, softness, breed character and a very tidy sheath. Unfortunately that’s where it ends, he succumbed to a fighting injury and we didn’t get to see his full potential.

Sire: Waco Yale E880 (P)
Dam: Yarrawonga E757

Yarrawonga Lazarus L708 (P)

Purchased in 2013. He comes from a very fertile dam who had produced 14 calves at the time of his purchase. We saw a lot of potential in this bull as he is structurally sound and has a calm temperament. Va-Voom produces a very consistent product, all of his calves are muscly and compact. His calves are peas in a pod, and are easily identifiable at a glance.

Sire: Dangarfield Summit S20 (P)
Dam: Dangarfield F8307

Dangarfield Va-Voom V227 (PP)
Sire Information

Drensmaine Drifter D84 (P)

Sire: Drensmaine Winchester 0150 (PS)
Dam: Drensmaine 789 (P)

Purchased at the 2016 Barcoo Breeders Bull Sale for $30,000, Drifter is as long as a short bus. The combination of length, width, good coat type and calm temperament appealed to us. His progeny are exhibiting great muscle and higher than average daily average life gains.

PLEASE NOTE - Strathmore J2 (P) has been assigned as the Sire of lots 2, 23 and 28 via a process of elimination. He died before we collected a DNA sample from him.
WITH YOU EVERY STEP OF THE WAY.

Working with Stud Stock producers, sharing industry knowledge and providing tailored advice on stud stock performance and management, we also offer you expert auctioneers. Offering national and global marketing options, our Stud Stock team can help you achieve more.
